July 29, 2009

Dear Owens Corning™ Residential Roofing Customer:

Due to rising raw material costs we are announcing a 4 to 6% price increase on all Owens Corning™ roofing and accessory related products.

This increase will be effective with shipments on or after August 31, 2009, regardless of order entry dates. Exact amounts, by product will be communicated by your Owens Corning Sales Representative.

Be assured that in this time of cost volatility, the Owens Corning™ Roofing team will continue to aggressively manage our manufacturing and delivery costs.

Thank you for your continued support.

Regards,

NATIONAL ANNOUNCEMENT STEEP SLOPE ROOFING PRICE INCREASE

AUGUST 31, 2009 PRICE INCREASE

July 27, 2009

Dear Customers:

After careful consideration, GAF-ELK has decided to announce a price increase. The impact of low unit volume and the related cost increase in connection with reduced manufacturing absorption, coupled with increased raw materials and other costs has created the need for this increase. By way of example, since our last announcement in March, 2009, we have absorbed substantial asphalt cost increases as the price of oil has risen over 60%.

Effective August 31, 2009, there will be a price increase of **approximately 5%** on all steep slope roofing and accessory products. The price increase will take effect with shipments on August 31, 2009, regardless of order entry date. As we approach August 31, we will communicate specific price increases by product. As always, we will continue to monitor costs and support our customers with quality products and services at a competitive price.

If you have any questions concerning this increase please contact your local Territory Manager, National Account Manager or Sales Manager.

Thank you for your continued support.

Jim Schnepfer
Vice President Sales
Steep Slope Systems

Bulletin

July 21, 2009

Dear CertainTeed Roofing Customers:

Residential and Commercial Roofing Products Price Increase:
Effective September 1, 2009

Recent increases in raw material and operating costs, are putting pressure on the cost of manufacturing roofing products. As a result, CertainTeed will increase prices for United States and Canadian customers on all residential and commercial roofing products 3% to 5% effective, September 1, 2009.

Orders shipped on or after September 1, 2009 will be invoiced at the new price, regardless of the order entry date. Your CertainTeed Roofing Territory Manager will contact you shortly with specific price increase amounts, by product, and will be happy to answer any additional questions that you may have.

At CertainTeed, we will continue to focus on controlling costs and providing the high quality products and service you depend upon. We appreciate your continued support of CertainTeed Roofing.

Sincerely,

September 1, 2009

Dear valued customers,

We are fortunate that business activities have improved compared to what they were earlier in the year. With better market conditions and reduced capacity at the mill level we are now faced with yet another price increase for the 3rd month in a row. The factors driving these increases include:

- Decreased mill capacity levels relevant to last year
- Extended delivery times
- All time low floor inventory at the distributor level
- Decreased imports from foreign producers
- Increased exports by the domestic mills

To offset these mill price announcements, effective October 1, 2009, Metal Sales Manufacturing Corporation will increase its pricing 3% on all plain and painted steel panels, trim and purlin products. We will continue to keep you informed of the market changes as the information becomes available to us. Thank you for your continued support of Metal Sales.

Sincerely,

Chris White
Vice President of Sales and Marketing
