PRESS RELEASE

Smith Phillips Building Supply Hires Dennis Weaver as Engineered Wood Products Sales Manager

FOR IMMEDIATE RELEASE

Winston-Salem, NC – Smith Phillips Building Supply welcomes Dennis Weaver as their new Engineered Wood Products Sales Manager. Weaver brings with him 20 years of experience in customer service, structural design and residential construction. As Sales Manager, Weaver will direct the sales, customer service and design aspects of the engineered wood products division. After completing the course requirements set forth by the National Association of Home Builders (NAHB), Weaver recently received the designation of Certified Green Professional (CGP).

“We are excited to have Dennis on our team,” said Rob Powell, Senior Vice President of Sales for Smith Phillips. “He brings a level of professionalism and experience that, when combined with our services, gives us an engineered wood program that is one of the best in our market. Smith Phillips Building Supply has over 25 years of experience as a stocking dealer in engineered wood. We are poised better than ever to give our builder customers the best solution to their structural frame design.”

For more information, contact Dennis Weaver at dweaver@smithphillips.net or 336.722.8167.

An independent, locally owned and operated business, Smith Phillips has been serving the Triad area since 1880. Our Winston-Salem and Statesville locations offer a high quality selection of products and quick on-site delivery. We are dedicated to making sure you get what you need, when you need it.
